Approximate Length of Cord
Needs to be requested
for electrifying to the ceiling.

Pathways for
electrical.

Pathways for
electrical.

The electrician is responsible
for designated 20 amp power to the
quad outlets per each leg, either from
the ceiling, or up from the floor along the
indicated path.

If powering the station from the ceiling
is requested, Collins will require the
electrician to wire specified length from
the top of the 34" Work surface of the
station with a Quick Disconnect
connection to the ceiling outlets.

* Standard unit is sold with two 20
Amp 6ft plugable cord from the
bottom.
