Seat & back cushions are attached to seat boxes with Velcro.

The tops of the steps are removable for leveling and attachment.

Seat boxes should be attached to wood framed walls by screwing through the interior back panel into wall studs or blocking. Fasteners for wood framed walls are provided. The fasteners for other wall types are not provided.

Adjacent cabinets and components should be assembled by fastening through the interior panels with the screws or bolts provided. Tighten securely.

Filler should be attached to right seat box by screwing through the filler into the side of the seat box and basin cabinet with the screws provided.

Components are marked for ease of assembly. Match up like markings for both vertical and horizontal sections. Markings will be on the backs or other surfaces that are inconspicuous after installation.

Seams and joints in proximity of sinks, shampoo bowls, or pedicure basins are to be sealed on-site with a clear silicone caulk to prevent water damage.
