

WALL MOUNTED QUANTUM COLOR PROCESSOR

SKU:1487H

The Collins Wall Mounted Quantum Color Processor features far-infrared technology. These processors produce the right amount of heat and allow the hair to process evenly.

The far-infrared technology processes hair color without damaging the hair follicles. Allowing the far-infrared waves to evenly heat up the hair strands from within minimizing heat exposure and alleviates the styling stress on cuticles. They are suitable for professional hair color processing and highlights.
