

JEFFCO HALO PROCESSOR ON STAND

SKU:4476

The Futuristic HALO Accelerator, introduced in 2011, is an efficient and effective way to reduce processing time of color applications.

The 360 degree rotary motion of the *halo shaped heat-source* provides evenly applied radiant heat and yields quicker and more even processing of color and perms.

The HALO Accelerator also has an adjustable heating zone with fan for the neckline.
